

A BEAUTIFUL DAY

The sun's coming up over Guardamar Bay
Got time on my hands, no bills to pay
The world's looking good right now
From where I'm standing

Got a beer and a burger to go
To a place where we both know
That the company's good
And the music's right for dancing

It's a beautiful day
Just spending time with all the ones you love
A beautiful day
Summer breezes and blue sky is above

España's fine and the feeling is good
Driving down the costa with a drop down hood
Listen to the spanish guitar playing on the local radio
Nothin' bothers me today
There's nothing that you gotta say
Would make me go back and miss out on tomorrow

It's a beautiful day
Just spending time with all the ones you love
A beautiful day
Summer breezes and blue sky is above

Instrumental break

It's a beautiful day
Just spending time with all the ones you love
A beautiful day
Summer breezes and blue sky is above

A beautiful day
Summer breezes and blue sky is above
