

Does the wind still blow in Oklahoma

LA's a fast horse, daddy
Everybody rides
I'm sorry I haven't called home lately
Out here time flies

I met a boy a few weeks back
He plays in a band
He's a whole lot like you, daddy, you're gonna like him
He's a good man

At times lonely sneaks up on me
But I'm getting by
Yeah I know what you've always told me
Cow girls don't cry

**But does the wind still blow in Oklahoma ?
Out here the Hollywood stars sure shine bright
It's such a long way from home here in California
Missin' you and that blue wide open sky**

Out here it's all freeways, fast cars
Cold concrete
You won't believe all the crazy people
Valley girls and sunset freaks

I met a girl you're gonna like her, mama
She has your hair
Red as the Tahlequah sunset
Sings like an angel I swear

I can't say I don't get lonesome
But I'm alright
Cowboys kinda go with homesick
Like blue moons and whippoorwill nights

**Does that wind still blow in Oklahoma ?
Out here the Hollywood stars sure shine bright
It's such a long way from home here in California
Missin' you and that blue wide open sky**

**Does that wind still blow in Oklahoma ?
Out here the Hollywood stars sure shine bright
It's such a long way from home here in California
Missin' you and that blue wide open sky
Don't forget me in your prayers tonight**
